

Compatibility of our LED lamps incl. control gear (DC) with following dimmers (DC phase dimmer)

Exceptions are the luminaires with AC marking, KIVO 140 AC and VIOR AC.

In principle, any phase dimmer can be used, but the following should be noted:

- NO LED-UNIVERSAL PHASEDIMMERS, they do not work with the control gear.
- Leading-edge or trailing-edge phase dimmers should be used, NO leading-edge/trailing edge phase combination dimmers.
- RL (Leading-edge) or RC (Trailing edge), not RLC (Combination) dimmers.
- VIOR bold works only with RC (Trailing edge) dimmers

Dimmer all countries (excl. Switzerland)		Dimmer only Switzerland	
Busch	RL: 2247 U* RC: 6519 U	Feller	RL: 40600.RL.FX54.61* RC: 40300.RC.FX.54.61
Berker	RL: 85421100*	Hager	RL: 548.702.008* RC: 548.722.008
Jung	RC: 211 GDE		

* Doesn't work for VIOR bold

Due to different electrical installations, changes to the products by the dimmer manufacturers and the simultaneous use of different lights in one installation, the dimming behavior may still be limited. Our recommendations therefore do not constitute a guarantee or warranty / Feb. 2026
